

A T A T G C A A A T

A stylized graphic of a DNA double helix. The letters A, T, A, T, G, C, A, A, A, T are arranged horizontally. The letters are colored: A is green, T is red, G is yellow, and C is blue. The letters are set against a background of a DNA double helix with blue and red strands. The letters are slightly offset from the strands, giving the impression of being attached to or floating above the DNA structure.
