

G T A T C G C G A G A T C T

The image displays a sequence of nucleotide bases in a stylized, colorful font. The top row consists of the bases G, T, A, T, C, G, C, G, A, G, A, T, C, T. The bottom row consists of the bases A, C, G, A, T, C. Each base in the top row is positioned above a corresponding base in the bottom row, suggesting a DNA double helix structure. The colors of the bases are: G (yellow), T (red), A (green), C (blue), G (yellow), C (blue), G (yellow), A (green), G (yellow), A (green), T (red), C (blue), T (red). The bases in the bottom row are: A (green), C (blue), G (yellow), A (green), T (red), C (blue). The bases in the bottom row are smaller than the bases in the top row.
