

T T A T A G C C G C

The image displays a sequence of ten nucleotide bases: T, T, A, T, A, G, C, C, G, C. Each letter is rendered in a distinct color and features a shadow effect below it. The colors are: T (red), T (red), A (green), T (red), A (green), G (yellow), C (blue), C (blue), G (yellow), and C (blue). The shadows are multi-colored, with each letter's shadow containing the colors of the other bases in the sequence.
