

A stylized sequence of nucleotide bases (G, C, A, T) with their corresponding base pairs (C, G, T, A) shown below them. The sequence is: G C A T C G C C C G C C C C T G. The bases are arranged in two rows. The top row contains G, C, A, T, C, G, C, C, C, C, T, G. The bottom row contains C, G, T, A, G, C, C, C, C, G, A, C. The bases are colored: G is yellow, C is blue, A is green, and T is red. The base pairs are shown as horizontal lines connecting the two rows. The sequence is: G C A T C G C C C G C C C C T G.
