

T C A C T T G T C A C T C A

A horizontal sequence of nucleotide bases: T, C, A, C, T, T, G, T, C, A, C, T, C, A. Each base is rendered in a different color: T is red, C is blue, A is green, and G is yellow. The bases are arranged in two rows. The top row contains the bases T, C, A, C, T, T, G, T, C, A, C, T, C, A. The bottom row contains their reflections, which are inverted and semi-transparent versions of the top row. The reflection of 'T' is a red 'T' pointing downwards, the reflection of 'C' is a blue 'C' pointing downwards, the reflection of 'A' is a green 'A' pointing downwards, and the reflection of 'G' is a yellow 'G' pointing downwards. The entire sequence is set against a white background.
