

AGGAGGCGCCAGGCGCCCA

The image displays a sequence of nucleotide bases: A, G, G, A, G, G, C, G, C, C, C, A. Each base is rendered in a large, bold, sans-serif font. The colors are: A (green), G (orange), C (blue). The sequence is mirrored below the main line, creating a reflection effect. The reflection is not a simple mirror image but a complex, multi-layered effect where the bases are slightly offset and semi-transparent, creating a sense of depth and movement. The colors of the reflection match the colors of the original bases above.
