

G C C A C C C A

The image displays the sequence G C C A C C C A. Each letter is rendered in a large, bold, sans-serif font. The 'G' is orange, the 'C's' are blue, and the 'A's' are green. Below the letters, there are colorful horizontal bars representing base pairings: G pairs with C (orange and blue), C pairs with G (blue and orange), A pairs with T (green and red), and C pairs with G (blue and orange). The bars are arranged in a staggered, overlapping manner to show the pairing between adjacent nucleotides.
