

TTCCGGGTT

The image displays a DNA sequence logo for the sequence TTCCGGGTT. The letters are color-coded: T is red, C is blue, G is yellow, and A is green. Each letter has a vertical stem and a horizontal base. The bases are decorated with horizontal bars and colored ovals. The first T has a red bar and a yellow oval. The first C has a red bar and a yellow oval. The first G has a red bar and a yellow oval. The second C has a red bar and a yellow oval. The second G has a red bar and a yellow oval. The third G has a red bar and a yellow oval. The second T has a red bar and a yellow oval. The final T has a red bar and a yellow oval. The bases are decorated with horizontal bars and colored ovals. The first T has a red bar and a yellow oval. The first C has a red bar and a yellow oval. The first G has a red bar and a yellow oval. The second C has a red bar and a yellow oval. The second G has a red bar and a yellow oval. The third G has a red bar and a yellow oval. The second T has a red bar and a yellow oval. The final T has a red bar and a yellow oval.
