

GTTTCCGGGT

A sequence logo for the DNA sequence GTTTCCGGGT. The top row shows the sequence in large, bold letters: G (yellow), T (red), T (red), T (red), C (blue), C (blue), G (yellow), G (yellow), T (red). The bottom row shows the conservation of each position, with letters colored to match the top row: A (green), G (yellow), A (green), A (green), T (red), T (red), A (green), T (red). The height of each letter in the bottom row indicates its relative frequency at that position.
