

G C C A C C C A

The image displays a sequence of eight nucleotide bases: G, C, C, A, C, C, C, A. The bases are arranged horizontally. The first base 'G' is orange, the second 'C' is blue, the third 'C' is blue, the fourth 'A' is green, the fifth 'C' is blue, the sixth 'C' is blue, the seventh 'C' is blue, and the eighth 'A' is green. Each base has a shadow below it, colored to match the base. The shadows are positioned directly under each base, with the 'G' shadow being green, the 'A' shadows being blue, and the 'C' shadows being orange.
