

GCCTGACT

The image displays a DNA sequence GCCTGACT. Each letter is rendered in a large, bold, sans-serif font. The colors of the letters are: G (yellow), C (blue), G (yellow), T (red), G (yellow), A (green), C (blue), and T (red). Below the letters, horizontal lines of various colors (red, green, blue, yellow) represent the base pairing between the two strands of the DNA double helix. For example, the yellow 'G' is paired with a red line, the blue 'C' with a green line, the yellow 'G' with a red line, the red 'T' with a blue line, the yellow 'G' with a red line, the green 'A' with a blue line, the blue 'C' with a yellow line, and the red 'T' with a blue line.
