

A C T T T C G T T T C T

The image displays a sequence of nucleotide bases arranged in two rows. The top row consists of the letters A, C, T, T, T, C, G, T, T, T, C, T. The bottom row consists of the letters G, A. The letters are colored as follows: A is green, C is blue, T is red, G is yellow, and the second A is green. Each letter has a shadow effect, giving it a 3D appearance. The letters are positioned such that the second row is offset to the right, starting under the second letter of the first row.
