

A C T T T C G T T T C T

The image displays a sequence of nucleotide bases arranged in two rows. The top row consists of the letters A, C, T, T, T, C, G, T, T, T, C, T. The bottom row consists of the letters G, A. The letters are colored as follows: A is green, C is blue, T is red, G is yellow, and the second A is green. Each letter has a horizontal shadow below it, with the shadow color matching the letter's color. The letters are spaced evenly across the image.
